SKILLS

Data Tools :
Python(Pandas, Seaborn, Numpy, Sklearn), Excel, SQL

Statistic :
Cleaning Data, Exploratory Data, Cluster Analysis, Forecasting, Cohort Analysis

Data Visualization :
Tableau (Public), Google Data Studio

Web Developer :
Framework Django, Tailwind & Bootstrap

UI Design :
Figma

CERTIFICATION

- **Full Stack Data Analytics by Revou, May 2022**
- Introduction to Artificial Intelligence for Business by Skill Academy, Sep 2021
- Learn Machine Learning For Beginners by Dicoding, Jun 2021

SUMMARY

My journey started in college majoring in Informatics Engineering where I became interested in processing and retrieving data in SQL form then I got a job as a Web Developer in charge of facilitating data management by creating a Web for input and data checking, and from this job I realized how important data is, for now, That's why I decided to take a data analysis course from RevoU, by joining this program (which only accepts <10% of all applicants), I managed to hone my data skills, especially the ability to process data in spreadsheets, SQL, Python, and data visualization in Tableau. Therefore, I am interested and want a career as a data analyst at a tech company.

EXPERIENCE

Web Developer & UI Designer
Mumtaza Muslimah Salon | Feb 2021 - Nov 2021

Salon Muslimah Mumtaza is a subsidiary of PT. PINTAR INNOVASI MANDIRI is located at Ruko Villa Dago Pamulang which is engaged in the field of care and beauty. My responsibility is to create a Mumtaza Web Management System to overcome the problem of inappropriate income and expenses from the salon admin by entering data into the system, with this system the data can be monitored and maintained and I create UI designs to attract online customers or members. What I did was the following:

- Web Developer – Using HTML & CSS for front-end, PHP for backend, Javascript for data validation, and SQL for data processing.
- UI Designer – Using Figma.

EDUCATION HISTORY

REVOU FULL-STACK DATA ANALYST
Full-Stack Data Analytics (FSDA) Program | Jan - Jun 2022

Doing 1 Group Project and 5 individual assignments
GPA 98.72% out of 100%.
What I learn from Revou :

- Understanding Business Problems and making Narratives using the Issue Tree method with problem definition using the SMART method and the tools used by google slides and docs
- Data Cleaning and Data Exploration – Using Spreadsheet, SQL, and Python
- Statistics – Using Univariate, Bivariate, Correlation, Regression, Cluster, Forecasting, Cohort Analysis, etc.
- Data Visualization – Using Tableau and Google Data Studio

PAMULANG UNIVERSITY
Bachelor's Degree in Computer Science | 2016 - 2021

GPA 3.3 out of 4.0
